

## Project Status Report I

Date of Report Issue/Prepared: 03<sup>rd</sup> February 2023

Report Prepared By: Vishvarajsinh Rana

Project Name:	Travel Advisor	
Project Team:	05	
Period Reporting:	Start Date: <b>Jan 09, 2023</b>	End Date: <b>Feb 03, 2023</b>
Overall Project Health:	Green (Good)	

### Summary

Project Status Summary
<p><b>Project Overview:</b> The goal of this project is to develop a travel app that allows users to plan and share their travel experiences. The app will feature detailed information on destinations, accommodations, attractions, and activities, as well as user reviews and recommendations. The app is designed to provide an all-in-one solution for travelers, from research to booking and sharing their experiences.</p> <p><b>Current Status:</b> The project is ongoing and is currently in the development phase. The following key tasks have been completed so far:</p> <p><b>Requirements Gathering and Analysis:</b> To identify the important features and functionalities that should be present in the app, the team thoroughly examined the market and the requirements of the target audience. The team created a thorough set of requirements that will direct the development process based on this study.</p> <p><b>Design and User Interface Prototyping:</b> The design team has produced a user interface that is both aesthetically pleasing and simple to use, ensuring a positive user experience. The layout is simple, the navigation is user-friendly, and the images are appealing.</p>

Accomplishments As Planned	Planned but not Accomplished
We have completed lot of things from the front-end as well as back-end. From front-end, we have made Sing-in, sign up, home page, Place Search page, map, any City, Restaurant or searched place's information page, About us, User profile page. These are some pages we have made so far.	There are some important pages which will need some time to make those are Service Provider pages, Admin pages, Review and Ask Questions pages and some other.
If we talk about back-end, we have completed Sign up, Sign-in, User Profile, Admin panel, Service Provider panel.	We are still working on many back-end things, we are currently making Review and Ask Question.

#### Upcoming Objectives for **Feb 04, 2023 to Mar 10, 2023**

	Planned Activities/Tasks for Next Period		
Activity/Task	Assigned To <name/s>	Duration <days>	Date
Front-end Service Provider pages	Vishvarajsinh Rana	15	20/02/2023
Front-end Review and Ask Questions pages	Maitri Patel	10	15/02/2023
Back-end Review and Ask Question	Vien Nguyen	15	20/02/2023
Connecting back end	Vishvarajsinh Rana, Vien Nguyen	20	25/02/2023
Rating Panel	Arnur Azangaliyev, Taric Folkes	10	15/02/2023

	Milestones for Next Period	
Milestone (Objective)	Assigned To	Delivery Date
Front-end Service Provider pages	Vishvarajsinh Rana	20/02/2023
Front-end Review and Ask Questions pages	Maitri Patel	15/02/2023

Back-end Review and Ask Question	Vien Nguyen	20/02/2023
Connecting back end	Vishvarajsinh Rana, Vien Nguyen	25/02/2023
Rating Panel	Arnur Azangaliyev, Taric Folkes	15/02/2023

### Managing Issues and Risk

Issues/Problems	Resolution Strategy	Due Date
Creating an intuitive and visually appealing user interface that is easy to navigate.	Conduct user research and testing to understand user needs and preferences, and iteratively improve the design based on feedback.	01/03/2023
Creating personalized experiences for users by leveraging data on their preferences and past behavior.	Implement machine learning algorithms to personalize the user experience based on data such as search history, bookings, and ratings.	05/03/2023
Integrating with multiple travel and hospitality APIs to provide real-time information about flights, hotels, and activities.	Use APIs from leading travel and hospitality providers, and regularly monitor and update integrations to ensure accuracy and reliability.	01/03/2023

Upcoming Risks	Risk Ranking (Hi, Med, Low)	Risk Impact (Hi, Med, Low)	Mitigation Strategy
Integrating with multiple travel and hospitality APIs to provide real-time information about flights, hotels, and activities.	1	hi	Use APIs from leading travel and hospitality providers, and regularly monitor and update integrations to ensure accuracy and reliability.
Creating personalized experiences for users by leveraging data on their preferences and past behavior.	2	med	Implement machine learning algorithms to personalize the user experience based on data such as search history, bookings, and ratings.
Creating an intuitive and visually appealing user	3	med	Conduct user research and testing to understand user needs

interface that is easy to navigate.			and preferences, and iteratively improve the design based on feedback.
Implementing mechanisms for managing and moderating large amounts of user-generated content, such as reviews and photos.	4	low	Develop moderation tools and implement guidelines for user-generated content to ensure quality and accuracy.
Supporting multiple languages and local currencies to cater to a global audience.	5	low	Implement language detection and support for multiple languages and currencies to cater to a global audience.
